

CASTORIA

for Infants and Children.

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have paregoric or laudanum to make it sleep. These drugs will produce sleep, and a few drops too many will produce the sleep from which there is no waking. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody, without labeling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrup," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. Castoria does not contain narcotics.

The signature of *Dr. H. Fletcher* guarantees genuine Castoria. Physicians Recommend Castoria.

"I have frequently prescribed Castoria for common ailments of children with good results." W. A. CRANDALL, M. D., Buffalo, N. Y.

"I object to what are called patent medicines, where maker alone knows what stuff is put in them, but I know the formula of your Castoria and advise its use in proper cases. I judge it to be a very useful, as well as harmless family medicine." N. B. SEARS, M. D., Brooklyn, N. Y.

Children Cry for Fletcher's Castoria. In Use For Over 30 Years.

THE CASTORIA COMPANY, NEW YORK CITY.

"AUNT DELIA" TO BE GUEST OF HONOR OF PRESIDENT.

BEVERLY, Mass., July 12.—If President Taft fails to have a comfortable summer it will not be the fault of "Aunt Delia" C. Torrey. "Will has had a long, hard winter and spring," Miss Torrey has told her friends in Milbury, Mass., "and I am going to see that he gets a few comforts of home." "Aunt Delia," as she is known far and wide, is eighty-four years of age, but she enjoys cooking special dishes for her nephew and looking after his comforts. She promises to be one of the chief guests of honor with the president at his summer home.

THE ORIGINAL AND GENUINE HORLICK'S MALTED MILK

is the most delicious, nourishing food-drink known for the anemic, the debilitated and the dyspeptic. So easily and promptly digested that it agrees with the weakest stomach. It is simply a pure food, invigorating and vitalizing.

It is pure, rich milk, with the extract of malted grain, in powder form, soluble in water. A nourishing drink is prepared in a moment by stirring vigorously in water, hot or cold. Unequalled as a food for infants, invalids and nursing mothers. Endorsed by physicians everywhere.

Samples free to Physicians and Druggists. At all Druggists.

HORLICK'S MALTED MILK COMPANY, Racine, Wis., U. S. A.

HILO PRISONERS DUCKING SOON

Cross Country Marathons Of Oahu Become Popular

(Special Bulletin Correspondence) HILO, Aug. 1.—Escapes of prisoners are becoming a standing event here in Hilo, and last week was no exception in this line. Luckily as the prisoners are gradually developing abilities in the line of running away, Deputy Sheriff Fetter is becoming a most expert tracker of such gentlemen, and the local police are doing some stunts in this direction which might well serve as an example to their brethren in Honolulu.

Last week escape was made by a Filipino, named Hano Makino, who was sent to jail last month on a charge of being a disorderly person. He had been mixed up in a cutting scrape in Puna.

Makino, together with five other prisoners, were working at Sheriff Pua's place at Wainaku. They were in charge of a lina, named Ernest Kaupuni. At about 3:30 o'clock in the afternoon, so Kaupuni told the police, he missed Makino and on looking around for him he saw the gentleman disappearing in the offing.

Kaupuni immediately telephoned to the police station, and the Deputy Sheriff with a bunch of officers started out on their usual picnic. Fetter went with some officers up Pihonui way, while other officers were sent in the direction of Wainaku.

The prisoner was first seen by two officers about two miles on the Wainaku side of Pua's residence. The moment the officers started in pursuit the quarry took to the tall grass, and after a short but lively chase he suddenly disappeared in a gully. Here the officers completely lost sight of him, and for a moment it looked as if Makino had vanished in thin air. But presently the mystery was solved. In the bottom of the gulch was a pool of water, and above the surface of this the nose and top of the head of the prisoner was visible. He had completely immersed himself in the water and merely had his nose in the air water-buffalo fashion. Officer Eddie Kamoku gamely hopped into the water after his man, caught him by the leg and pulled him to the bank, whence he was escorted to the jail.

To Judge Swain, before whom the Filipino appeared the next morning on a charge of escaping, Makino told an affecting story. He said that as he was working at the Pua place his cousin passed along the road, and he went over and shook hands with him. After a few minutes conversation the cousin moved on, when Makino "got foolish," and without knowing what he was doing he ran away. Judge Swain set the defense down as temporary insanity, or at least a Filipino version of it, but nevertheless Makino was handed a sentence of imprisonment for one year, in addition to the sentence which he was already serving.

LOCALS ON HAWAII

(Special Bulletin Correspondence) HILO, Aug. 1.—Attorney Carl Smith, counsel for the Pepeekeo Sugar Co. in the famous boundary case, in which the Territory took an appeal from Judge Parson's decision to the Supreme Court, has been advised that the appeal will not be heard on Aug. 2, as had been decided, but that it has been indefinitely postponed awaiting the return of Judge Hartwell from the mainland.

Frank Woods has been appointed by Judge Matthewsman to be executor of the estate of his mother, Mrs. Stillman, who died a few weeks ago. National Committeeman Holstein was last week suffering from a severe attack of dengue fever, but has now recovered. It was the first time he had been sick in his life.

Sheriff Pua and County Attorney Beers returned last week from Kohala where they attended the term of Judge Matthewsman's court.

The regular meeting of the Board of Supervisors for the month of August will begin tomorrow morning. Judge Matthewsman last week granted Mrs. Keppa a divorce on grounds of intemperance. The couple hails from Kau.

S. Hata has filed a suit in assumpsit against Nichida Maao asking for judgment in the sum of \$498.30, alleged to be owing on account of merchandise delivered.

The Labor Union of Hilo has formed a branch club at Laupahoehoe, which claims a membership of thirty-five. It is reported that the officers are E. K. Simmons and Wilson Napa-kuelua.

Deputy Sheriff Fetter last Thursday evening made a raid on some Japanese lodging houses in Hilo, bagging

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded.—Made by PARIS MEDICINE CO., Saint Louis, U. S. A.

HILO HELPED U. S. BUILDING

Business Men All Pulled Together for Needed \$4000

(Special Correspondence) HILO, Aug. 1.—If Hilo does not see her Federal building in the shortest possible order, it will not be the fault of the business men of this city, who inside of a few days by initiative and energy have done what was necessary to make available the appropriation of \$200,000 recently made by Congress. The action of Hilo is in marked contrast to that of Honolulu, as the community here has in a few days, through unanimity, accomplished that which the Honolulu people have been prevented from doing through squabbles and wire-pulling.

When the matter of the appropriation for the building was brought up at the meeting of the Board of Trade recently, it was pointed out that the \$200,000 could not be spent before two obstacles had been removed. One of these consisted in the securing of the Federal site free from all encumbrances, and the other provided for the building of a road from Waihanu street to the river, beginning about where Firemen's Hall now stands.

A committee was appointed to attend to this matter, and this committee has certainly not let the grass grow under its feet.

The first step was to ascertain how the site could be turned over free from all encumbrances. Here the trouble lay in the fact that Mr. Luther Severance owned a lease of the mauka part of the lot, and on this land there are several buildings standing. The committee had a conference with Mr. Severance, the result of which was that he agreed to surrender his lease on the payment of \$4000, which figure is considered very reasonable.

Chairman James Lewis of the Board of Supervisors was asked whether the county would agree to build the street mentioned, and Lewis said that he could make no promises, the lack of funds from which the county is an acute sufferer being the reason. Lewis intimated, however, that if the merchants would pay for the Severance lease, the county might be induced to follow such an example of generosity.

Last Friday, Chairman Richards of the Board of Trade went to Honolulu to confer with Superintendent of Public Works Marston Campbell about the matter. That his mission was successful is shown by the following wireless received from Richards last Saturday afternoon:

"Tribune, Hilo. Can have buildings and rentals. Balance local. Everything satisfactory. 'RICHARDS.'"

The first sentence of the message refers to the plan of the committee to secure funds through the sale of the buildings now standing on the land leased by Severance, and by securing the rentals paid by the tenants of these buildings until such a time when the buildings will have to be removed. It is estimated that it will take at least a year before the plans for the new building have been completed and approved and before the actual building operation will begin, and as the rentals referred to amount to about \$1500 a year, they, together with the money from the sale of the buildings, will be sufficient to pay for the Severance lease and the cost of the building.

Kalua, the Hawaiian who was taken to face Judge Matthewsman at Kohala on a charge of contempt of court, escaped with a reprimand. County Attorney Beers pointed out that the man had already received considerable punishment, having been held in jail for two months waiting for a hearing.

Manuel Moniz, a young Portuguese was last week committed to the Circuit Court by Judge Swain on a charge of attempted rape on a Japanese woman. The crime is alleged to have taken place below the Hackfeld lumber yard where the young fellow was employed.

A divorce has been filed in the suit of Manuel Vieira against his step-mother, Maria Vieira, for the annulment of a deed, on the grounds that there is no equity in the bill, and also because the bill is uncertain in that it does not set forth who are the heirs of the property of the late Joao Vieira, the father of the complainant and the maker of the deed which it is sought to have set aside.

Rex Hitchcock, formerly of Hilo but now a resident of Molokai, visited Hilo last week to see his relatives. He was accompanied by his oldest son.

News has been received here of the death on July 4th, at Dayton, Ohio, of Brother Ignacius, who was one of the first two teachers of St. Mary's School and who lived in Hilo for many years, leaving some twelve years ago. He was the first instructor of the Hilo Band and is well remembered here. He died after having been subjected to an operation.

What Army and Navy Folk Are Doing

AMERICA EVOLVES MOST TERRIBLE GUN

New York, July 25.—The United States army has the secret of the most powerful explosive known to military science and it has at last devised a gun strong enough to use it.

So declared General Frederick Dent Grant, who arrived in New York today to assume command of the Department of the East.

The rumors of a Krupp gun that will revolutionize modern warfare and of a marvelous new explosive just adopted by Japan, were declared by General Grant to be mere "war scares." He said:

"I have heard the rumors that the Krupps have built for Germany a wonderful new gun that will revolutionize modern warfare before the aeroplane has a chance," said General Grant, "and I have looked over a new gun we've got down here at Governor's Island and you may say for me that the American gun is the most perfect gun in the world this minute."

"I have also heard," said General Grant, "about a marvelous new explosive just put into service by the Japanese. I guess you'll find that this and the Krupp story are both war scares, because our naval attaches report that the marvelous explosive is only a picric acid compound which we've been shooting here for several years."

Our ordnance department is the most efficient and up-to-date in the world. I think we have the best guns and I know we have the best men.

"The aeroplane isn't an imminent factor in warfare yet. How soon it may be no one knows, but until it becomes so we might very well go on preparing for more peace with the

realized from the sale of the buildings, will help considerably.

From the rest of the message it appears that the Territory has no funds which could be applied towards the purchase of the Severance lease, and that this money must be found locally. This is not so bad as it might appear at first glance, for the committee has already secured from various firms promises to pay different sums towards the total needed, and there is full assurance that the money needed will be forthcoming when it is called for.

So in a few weeks' work the Board of Trade has swept aside the obstacles which remained before the appropriation could be made available, and it now only remains for Uncle Sam to act.

guns that have kept peace so many times before.

"We've had the most powerful explosive of modern times waiting for guns strong enough to shoot it—for more than a dozen years. But nobody could devise the gun. Well, we have the gun now and we are using the explosive in it and while I am new to this command and can't give out any figures yet, I dare say it might be correct to assert that those guns shoot the best and their gunners aim them straighter than any guns shot by any other nation in the world."

With its contract requirements calling only for a speed of twenty-eight knots an hour, the torpedo boat destroyer Roe made thirty-one knots in its standardization test off the Delaware Breakwater course on July 14.

The Navy Department announced on July 11 that the enlargement and extension of the drydocks at Puget Sound would increase the total cost to \$1,863,996, and at Pearl Harbor the enlargement would advance the cost to \$2,304,000.

Personal strife among the officers of the United States Marine Corps reached a climax on July 15 when the Navy Department, as the result of a court of inquiry, sent letters of censure to nearly all the officers concerned.

The United States submarine Salmon, which sailed from Quincy, Mass., on July 3, arrived at Hamilton, Bermuda, on the 10th. The Salmon encountered a rough sea on the 4th and 5th, but suffered no damage. She fully demonstrated the practicability of the submarine for long ocean voyages.

St. Louis, July 24.—Andrew Drew, a local newspaper writer, who is qualifying as a pilot for the international balloon race to be held here in October, today made 19 miles in 25 minutes with the balloon Missouri. He started from here at 3 o'clock this afternoon and experienced a rough landing at Collinsville, Ill.

Reouf Bey, acting consul-general of Turkey in New York, announced recently that the ministry of public works in Constantinople has invited bids for the construction of an extensive system of trolley lines in Constantinople.

ALL WORK, NO PLAY. NEVER A VACATION

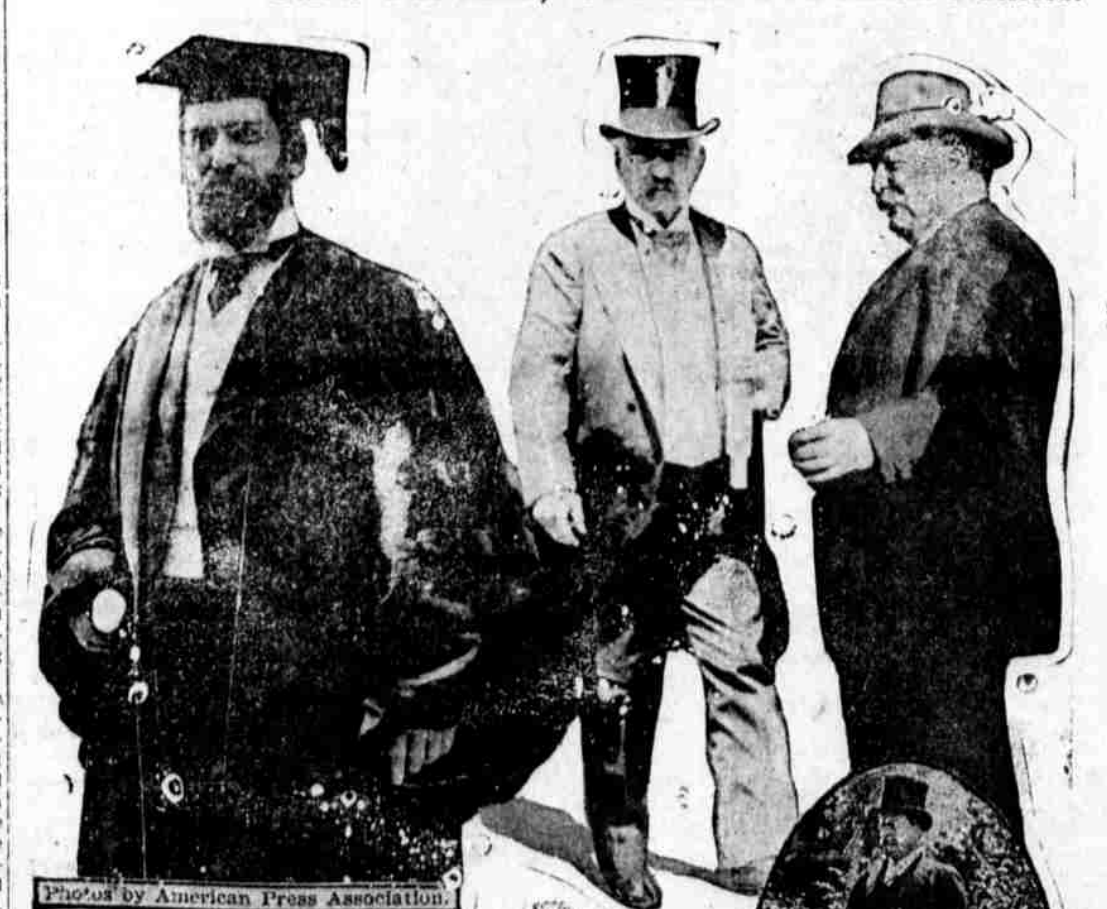

GEORGE M. REYNOLDS

CHICAGO, July 26.—George M. Reynolds, head of the \$200,000,000 Continental and Commercial Bank at the age of forty-five, is a living example of what attending strictly to business will do for a man. President of the second financial institution in America while young enough to be the son of many of his directors, Mr. Reynolds is a man who never stepped out of the beaten track or ever stopped working and never suffered a reverse. He has never lost a day from sickness; he has never taken a vacation that did not have business inside; he does not drink; he does not smoke; he does not play bridge; he does not play golf; he has no favorite author; he has no hobby but banking; he has no country residence; he does not even take exercise; he works nine hours a day. "Make your business your pleasure and marry early. These are my rules," said Mr. Reynolds. "I married at nineteen a girl in the little Iowa country town where I was cashier of the bank. My health is fine. I don't play any outdoor games—I have no interest in them—and yet I never was in better health in my life. I have an automobile. I ride three times a week. I never went to any college. I began as a messenger in a bank at fourteen."

Degrees Given By Harvard To Morgan And Hughes Starts The Merry-Go-Round Of Political Rumors.

Photos by American Press Association.

Beverly, Mass., July 26.—When Harvard gave degrees to J. Pierpont Morgan and Governor Hughes, with Colonel Roosevelt looking on, little did the college officials think they were going to keep politicians up nights figuring out various combinations of what will and will not happen. The fact that Morgan failed to hurry up to meet Roosevelt means that Wall Street is "laying" for the Colonel, according to the gossip of some. The fact that Governor Hughes smiled after his talk with the Colonel means "there's a dark day coming for others." Then the conference on Burgess point between Taft and Roosevelt means so many different things that the public is left to take its choice. He put Taft; he did not pat him, and so it goes. In the meantime Mr. Morgan is going ahead making money notwithstanding his degree, and Governor Hughes is still fighting machine politicians.
